#### NOT CLASSIFIED AS HAZARDOUS ACCORDING TO CRITERIA OF NOHSC

Each High Fire Glaze is a mixture of ceramic material containing, water, non-leaded frits, clay, and other minerals and color pigments. Contains potential carcinogens: Crystalline silica (quartz), as an inhalation hazard, may be present if:

- a) Unfired, dried glaze is excessively handled and allowed to create dust.
- b) Mist is present after spray application.

A few pigments may contain small amounts of zirconium encapsulated cadmium and other metals. Other ingredients present have no known acute toxicity.

### 11 – TOXICOLOGICAL INFORMATION

**HEALTH HAZARD SUMMARY:** Under normal conditions of use, adverse health effects are not anticipated. Due to the form of the products and low volatility, an inhalation hazard is not anticipated unless products are heated or sprayed.

These mixtures contain silica, a known carcinogen. Inhalation is the route of entry into the body that can lead to the development of Silicosis. These water-based, premixed products should be non-toxic during recommended use. Some of the pigments may contain small amounts of various forms of metals (Sn, Mn, Ti, Zr, V, Fe, Co, Cr, Ni, Cd, Pr), some of which are considered carcinogenic. The metals in pigments may be in form of frits, spinel or formed from high temperature calcination that may have a different bioavailability than the metal itself. Silica and pigments in the glaze should be non-toxic during recommended use.

<b>EYE:</b>	Low irritants. Contact may result in irritation, lacrimation and redness.
<b>INHALATION:</b>	Exposure considered unlikely. Due to the form of the products and nature of use, an inhalation hazard is not anticipated with normal use.
<b>SKIN:</b>	Low irritants. Prolonged or repeated contact may result in mild irritation.
<b>INGESTION:</b>	Low toxicity. Ingestion is considered unlikely due to the form of the products. However ingestion via hand-mouth transfer may result in gastrointestinal irritation, nausea and vomiting. Maintain good personal hygiene standards.
